

Longline Fishing Systems

Now you have choices.

Mini-CircleMatic® Baiter

CircleMatic® Baiter

The Mini-CircleMatic® System

The **Mini-CircleMatic® Baiter** was designed specifically to respond to a combination of fisheries that require larger size circle hooks, thus eliminating the traditional labor-intensive hand baiting operation. The **Mini-CircleMatic® Baiter** has the flexibility required for today's fisheries.

Bait tray loaded with squid (left) and Mini-CircleMatic system (right) installed on longliner.

- Designed to bait full offset CircleMatic® hook sizes 5 through 7.
- Latest CircleMatic® baiting technology provides precision baiting.
- Ideal system for 40' to 80' vessels fishing 15 - 30,000 hooks/day.
- Baiting circle hooks at speeds of three to four hooks per second.

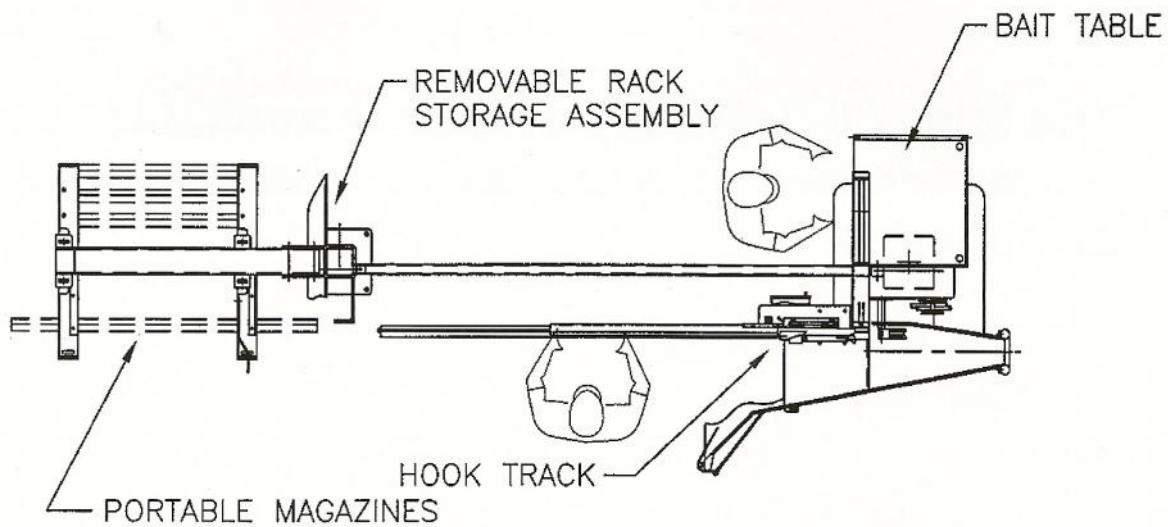

The Mini-CircleMatic® system is available for installation on a variety of vessel deck arrangements.

Small vessel with Mini-CircleMatic® system using circle hooks showing the variety of deck arrangements possible.

Short racks using circle hooks for CircleMatic system.

The Mini-CircleMatic® System

Mini-CircleMatic was first installed aboard the 56' Longliner Miss Lori in 1999.

BAITER DIMENSIONS

Height: 60.3" (1532 mm)
Length: 157.6" (4003 mm) *
Width: 52.6" (1336)
* Optional Length: 109.6" (2784 mm)

Weight: 650 Lbs (295 Kg)

The CircleMatic® System

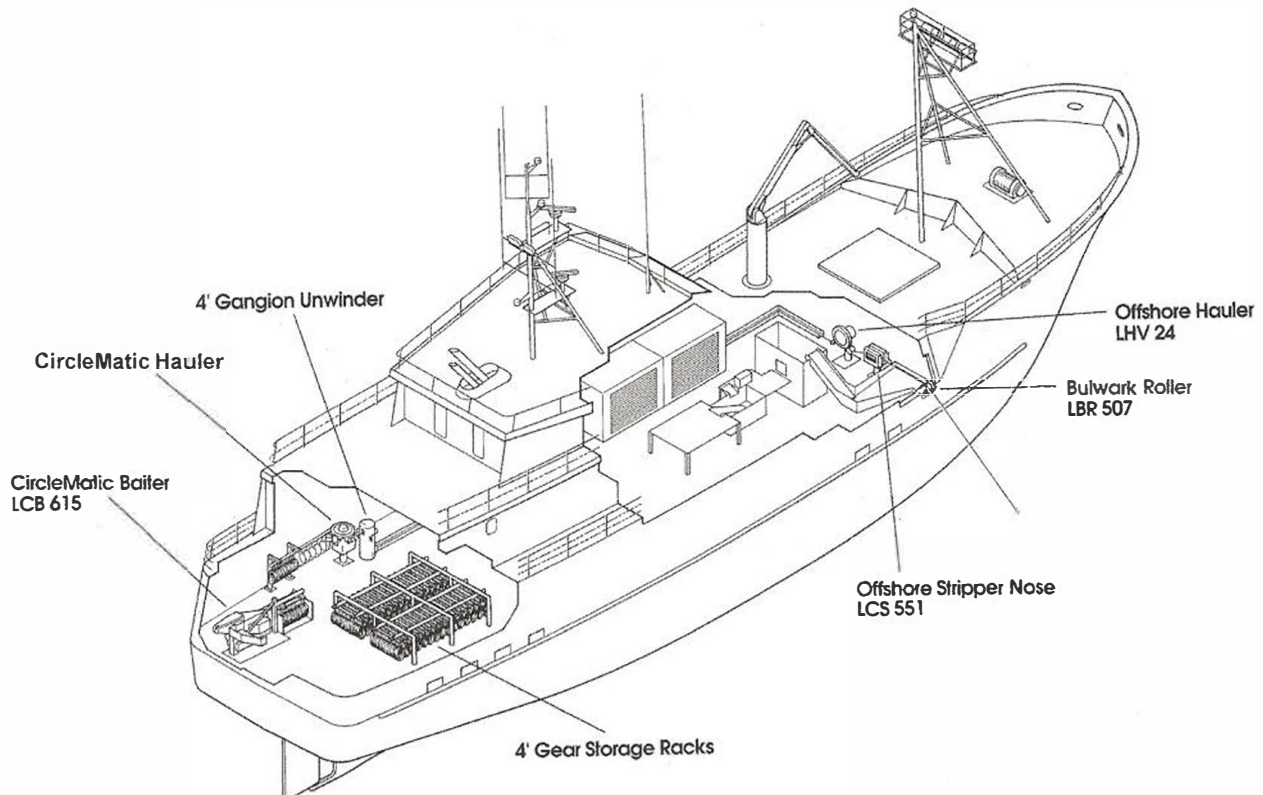

The highly-successful CircleMatic® system combines the catching efficiency of **true circle hooks** with the benefits of automation.

The CircleMatic® system is available with either long storage racks, or portable short racks to suit a wide range of vessel arrangements. The ability to use #5, #6, or #7 circle hooks and the option of using swivel gear, add to the versatility of the CircleMatic®.

A wide variety of bait lengths are available at the turn of a dial on the new CircleMatic® baiter. Recent refinements also include enclosed and easily accessible modular knife and conveyor drives for easy maintenance.

From medium size vessels to the most sophisticated factory longliners, Smith Berger MARCO CircleMatic® is the choice for circle hook fishing.

The CircleMatic® system baits circle hook sizes shown below

Smith Berger can provide longline systems for small vessels to factory freezer-longliners using the highly-efficient circle hook systems.

135' freezer-longliner Frontier Spirit with 35,000-hook MARCO CircleMatic system.

Both **CircleMatic®** and **Mini-CircleMatic®** systems are available in a two-deck arrangement as shown above, or in single-deck arrangements as pictured below.

TYPICAL LAYOUT

Medium to large factory longliner vessels with CircleMatic® system using circle hooks with short portable racks, fixed long racks, and short portable racks installed in removable container (below).

System Components

CircleMatic Baiter LCB615
Automatically baits true circle hooks

Mini-CircleMatic Baiter LCB675
Automatically baits true circle hooks

Bulwark Roller LBR507
Mounts to the bulwark for
trouble free hauling

Offshore Hauler LHV24
The primary hauler on
large vessels

MarcoMatic Hauler/
Unwinder LST60CS un-
winds gangions, captures
hooks onto storage racks

Offshore Fish Stripper LCS551 removes
fish and unused bait from hooks as they
are hauled aboard

Bait Splitter LBS520 Splits larger, less
expensive bait to size for Autobaiting
machines
